Responsible Internet Use Rules for Staff, Visitors and Students

The computer system is owned by the school. This Responsible Internet Use statement helps to protect students, staff and the school by clearly stating what use of the computer resources is acceptable and what is not.

Irresponsible use may result in the loss of Internet access and could lead to disciplinary proceedings for staff.

Network access must be made via the user's authorised account and password, which must not be given to any other person.

School computer and Internet use must be appropriate to the student's education or to staff professional activity.

Copyright and intellectual property rights must be respected.

E-mail should be written carefully and politely, particularly as messages may be forwarded or printed and be seen by unexpected readers.

Users are responsible for e-mail they send and for contacts made.

Anonymous messages and chain letters are not permitted.

The use of unauthorised chat rooms is not allowed.

The school ICT systems may not be used for private purposes, unless the headteacher has given permission for that use.

Use for personal financial gain, gambling, political purposes or advertising is not permitted.

ICT system security must be respected; it is a criminal offence to use a computer for a purpose not permitted by the system owner.

The school may exercise its right to monitor the use of the school's computer systems, including access to web-sites, the interception of e-mail and the deletion of inappropriate materials where it believes unauthorised use of the school's computer system is or may be taking place, or the system is or may be being used for criminal purposes or for storing unauthorised or unlawful text, imagery or sound.

GUIDANCE FOR PUPILS ON CYBER-BULLYING

If you believe you or someone else is the victim of cyber-bullying, you must speak to an adult as soon as possible. This person could be a parent/carer or adult at school.

- ☒ Do not answer abusive messages but log and report them
- ☒ Do not delete anything until it has been shown to an adult (even if it is upsetting, the material is important evidence which may need to be used later as proof of cyber-bullying)
- ☒ Do not give out personal IT details
- ☒ Never reply to abusive e-mails
- ☒ Never reply to someone you do not know
- ☒ Stay in public areas in chat rooms
